College Calendar.

1907-1908.

September 5—Fall term begins.

September 6—Annual reception.

November 14—Second quarter begins.

November 28—Thanksgiving exercises.

December 24—January 1—Christmas holidays.

January 15—Subjects for Theses and Orations.

January 16—Second term begins.

January 17—Mid-year reception.

February 22—Washington's Birthday—Celebration by the Literary Societies.

March 26—Fourth quarter begins.

March 26—Annual Debate.

May 25—June 1—Final examinations.

June 2—Board of Trustees meets.

2:00 p. m.—Elocution Recital.

8:00 p. m.—Society representatives.

June 3—11:30 a. m.—Annual address.

3:30 p. m.—Baccalaureate sermon.

8:00 p. m.—Annual concert.

June 4—Commencement Day—Graduating exercises.

3:00 p. m.—Society re-unions.

4:00 p. m.—Art exhibit.

8:00 p. m.—Alumni address.

Board of Trustees.

Prof. E. L. Moffitt, President, *ex-officio*.....Elon College, N. C.
Rev. P. H. Fleming, Secretary and Treasurer.....Burlington, N. C.

TERM EXPIRES 1908.

Faculty.

EMMETT LEONIDAS MOFFITT, M.A., LL.D., *President,*
Professor of History.

REV. JOHN URQUHART NEWMAN, Ph.D., Litt.D., D.D.,
Professor of Greek and Biblical Literature.

REV. WALTON CRUMP WICKER, B.A., M.A.,
Professor of Science and Philosophy.

PETER JEFFERSON KERNODLE, B.A., M.A., M.Acets.,
Professor of Mathematics.

WALTER PHALTI LAWRENCE, Ph.B., M.A.,
Professor of English Language and Literature.

WILLIAM ALLEN HARPER, B.A., M.A.,
Professor of Latin Language and Literature.

ANDREW ROBERT RAMEY, B.A., M.A.,
Adjunct Professor of Greek Language and Literature.

.....
Professor of Modern Languages.

JETSON JACKSON LINCOLN, Ph.B., M.A.,
Principal Preparatory Department.

Miss FLORENCE WILSON,
(New England Conservatory and Munich) Director, Vocal
and Instrumental Music and Harmony.

Miss ELISE RAMSAY,
Assistant in Piano.

Miss MARY LOU PITT, Ph.B.,
Assistant in Voice and Piano.

Miss CORNELIA WADDELL PRESTON,
(New York and Paris) Art.

Miss ANNA IRENE HELFENSTEIN, B.A.,
Elocution and Physical Culture.

REV. THOMAS M. McWHINNEY, D.D., LL.D.,
Lecturer on Christian Ethics.

REV. FRANK S. CHILD, D.D.,
Lecturer on Literature and History.

ABRAHAM LUCIUS LINCOLN,
Laboratory Assistant.

MISS MAMIE TATE,
Librarian.

PERCY GLANDON GUNTER,
Assistant Librarian.

MRS. MARY GREEN REITZEL,
Matron West Dormitory.

JOHN WILLIS BARNEY, JR.,
Proctor East Dormitory.

Officers of the Faculty.

E. L. MOFFITT, *President.*

W. A. HARPER, *Secretary.*

W. C. WICKER, *Registrar.*

P. J. KERNODLE, *Bursar.*

W. P. LAWRENCE, *Curator of Library.*

Committees of the Faculty.

The President is a member, *ex-officio*, of all committees.

Athletics—E. L. Moffitt, W. A. Harper, W. C. Wicker.

Lectures—A. R. Ramey, P. J. Kernodle.

Debates—W. P. Lawrence, W. A. Harper, J. J. Lincoln.

Publications—P. J. Kernodle, W. P. Lawrence.

Press Association—A. R. Ramey, W. A. Harper, J. J. Lincoln.

Religious Organizations—W. P. Lawrence, W. C. Wicker, P. J. Kernodle.

ADDITIONAL INSTRUCTORS.

Two new instructors have been added to the Faculty for the coming year:

Mr. John T. Cobb, B. A., M. A., graduated from Elon College in 1899, and has since taken his Master's degree from the University of North Carolina. Mr. Cobb's major work at the University was in History and Political and Social Science, and he becomes instructor in these subjects for the ensuing year. Most of his work, however, will be in the Preparatory Department; and having had eight years of successful experience as Superintendent of leading high and graded schools of the State he comes to us with every assurance of success in his work here.

Mr. Vergil C. Pritchette, Ph. B. is an honor graduate of Elon College, and is taking the Summer course in Science and Physical Culture at Harvard University. He comes as an instructor in the Preparatory Department, and will devote most of his time to the scientific branches, in which he is especially interested, and which he is now studying at Harvard.

Mr. Pritchette will also have charge of the field and track games and other athletic exercises of the young men, and will direct in their systematic physical training. This is a feature that has been much needed here, and puts us in line with the other leading institutions which recognize the importance of systematic physical training for young men who are to do the best intellectual work.

Miss Helfenstein will have charge of the physical training of the young ladies during the coming year, and will give them the systematic drill work of a regular physical culture course.

We are pleased to announce these new features of the work for next year, and feel sure that they will be a source of gratification to our patrons and friends.

lotte. The railroad is the southern boundary of the campus and commands a view of the College buildings.

Six mail and eight passenger trains stop daily. At the depot are telephone offices, a telegraph office and an express office. There is also telephone connection with the College dormitory.

Press Association. —

Religious Organizations—W. P. Lawrence, W. C. Wicker, F. J.
Kernodle.

General Information.

The College seeks to promote good morals and personal piety, thorough scholarship and liberal culture. The Institution is the property of the Christian Church, but its non-sectarian spirit is shown in the fact that no less than seven denominations patronize it. All denominations have equal advantages in the care and culture of their children. Both sexes are admitted with equal privileges. Contact of the sexes in the school-room, under proper regulations, tends to promote neatness, politeness, purity of speech, correct morals, and studious habits.

September 13, 1888, the General Convention of the Christian Church, South, in Extraordinary Session at Graham, N. C., decided to establish a college adapted to its needs, and appointed a Provisional Board to select a location and erect buildings. A site containing forty-eight acres in Central North Carolina, on the Southern Railway, was chosen December 20, 1888, which is covered with a beautiful grove of oaks; hence the name, Elon—the Hebrew for oak grove—implying strength and beauty.

The College was chartered by the General Assembly of North Carolina, March 11, 1889, and was opened to students September 2, 1890.

LOCATION.

Elon College is sixty miles west of Raleigh, and seventeen miles east of Greensboro, on the North Carolina division of the Southern Railway, running from Goldsboro to Charlotte. The railroad is the southern boundary of the campus and commands a view of the College buildings.

Six mail and eight passenger trains stop daily. At the depot are telephone offices, a telegraph office and an express office. There is also telephone connection with the College dormitory.

The location of the College is all that can be desired for convenience, health, and beauty. It is sufficiently remote from large towns and cities to escape their disturbing temptations and excitements. The manufacture and sale of ardent spirits, gambling, etc., are, by the charter, forever prohibited within three miles of the College.

HEALTHFULNESS.

The temperature is mild, averaging 59 degrees. The healthfulness of this section is unsurpassed. There is no better, purer, cooler, and more healthful water in the South than at Elon College.

BUILDINGS.

All the College buildings are heated by steam, lighted by electricity, and furnished with water. The dormitories are equipped with bath-rooms, modern and thoroughly sanitary.

The main building is used for college purposes, lecture-rooms, laboratories, society halls, museum, library, reading-room, etc. It is a substantial brick structure, 129 feet long, 57 feet wide, three stories high, with an octagon front 25 feet in diameter, and an observatory on top.

The new West Dormitory, a three-story brick building 158 feet long and 46 feet wide, which will accommodate one hundred young ladies, besides lady teachers, has been neatly furnished and modernly equipped. The annex to the main building is 80 feet long and 40 feet wide, two stories high, and contains the dining-hall and gymnasium.

The East Dormitory, a three-story brick building of twenty-five well-ventilated and comfortable rooms, is used by the young men. This is neatly furnished and equipped.

A substantial two-story brick building 35 x 45 serves as the central heating, lighting and pumping station.

CAMPUS.

The campus of twenty-five acres lies on the north side of the railroad. Native oak and hickory cover portions of the campus. Other trees and shrubbery have been transplanted, and efforts are continually being made to adorn and beautify the campus. The campus is well lighted by ten arc lamps.

VILLAGE.

The village lies on both sides of the railroad, with streets sixty-six feet wide, and four-acre lots in each square. Thirty families, interested in education, occupy handsome residences and form a good community.

GOVERNMENT.

The government is mild and parental, yet firm and decided. The effort is constantly being made to cultivate and elevate Christian character, governed by a firm principle, a high sense of duty and propriety, and an earnest love of right.

The rules of the school are few, the ideal principle of honor and self-respect being largely relied on to maintain best discipline and produce best results in demeanor, scholarship and character.

When a student registers he signs an agreement to obey the rules, and disobedience is considered sufficient ground for asking him to withdraw from the institution.

INSTRUCTION.

The College seeks to keep fully abreast of the age in matter and method. The professors and instructors put themselves in contact with living thought. The best methods of imparting instruction are in practice in all departments.

By reference to the several departments, it will be seen that the very best and most highly approved text-books are used, and that the course of instruction is equal to that of the best colleges. Graduates of Elon are admitted to the highest universities without examination.

PUBLIC LECTURES.

During the session popular lectures will be delivered by prominent gentlemen and eminent speakers. Such lectures are a powerful stimulus to student life lending inspiration and stirring enthusiasm in college work. From this source much living thought may be assimilated, and students kept informed on the important questions and vital issues of the day. Lectures in this course are free to the school, and in

the past have proven one of the most helpful as well as one of the most pleasant features of the College exercises.

MORAL INFLUENCES AND CHURCH PRIVILEGES.

There is regular preaching in the College Chapel every Sunday by the pastor, by some ministerial member of its Faculty, or by an invited brother.

Students are expected to attend these services every Sunday. Students are under no sectarian influence, the sole object being the religious welfare of each student. All are required to attend Sunday-school every Sunday. A Young People's Society of Christian Endeavor meets each Sunday evening.

The Young Men's Christian Association, the Young Women's Christian Association, the Young Women's Christian Temperance Union, Anti-Cigarette League, and the Bible-training classes, all of which have live and active organizations in the Institution, have awakened a deep and growing spiritual interest.

These organizations are doing much for the moral and religious upbuilding of the young men and women who are students in the Institution.

Each day's work is opened with religious worship, conducted by some member of the Faculty or visiting friend.

LIBRARY.

The College has a well-selected Library. An addition of carefully selected books is made to the Library every year. We earnestly desire donations of books and of money to this department, to increase its usefulness.

The Library is open from 9 a. m. to 5 p. m. each day for the benefit of students in all departments. The accommodations are being constantly improved, making this one of the most enjoyable and profitable features of the Institution.

READING-ROOM.

In addition to the Library, the College maintains an excellent Reading-Room, supplied with the best magazines,

weekly and daily journals, which keep the student in touch with the current thought and issues of the day.

The Reading-Room is open from 9 a. m. to 5 p. m. each day, except Sunday, and is under the supervision of the Curator of the Library.

LITERARY SOCIETIES.

The Philologian and Clio Societies for young men have large, handsomely furnished halls on the third floor of the College building. The Psiphelian Society, composed of young ladies, is on the first floor of the College building, and occupies a hall tastily furnished and beautifully decorated.

These societies meet every Friday evening for debate and general literary work, and as a rule, Saturday mornings for the transaction of business. They form a powerful factor in college life and college work, and are doing much, both in literary training in general and in the study and culture of the art of speaking and writing in particular.

The Philologian and the Clio Societies have instituted Loan Funds, by means of which they each keep in school two or three worthy members. *One must be a registered student ten days before joining a literary society.*

GENERAL EXAMINATIONS.

Examinations are held at the close of each term.

An average of 70 on each subject, including term standing and examination, is required for advancement.

The standing of each student is graded as *passed, conditional, or failed.*

Conditional means that the student is allowed a re-examination at the beginning of the next term, or, if the study is a continuous one and the grade of work done shall be satisfactory to the Professor in charge, he may be excused from a re-examination.

RULES OF EXAMINATION.

Each student, before being entitled to any grade upon an examination, is required to subscribe his name to the follow-

ing pledge: "I hereby certify that during this examination I have neither given nor received aid."

Students who hand in papers at the regular examinations are considered to have relinquished any claim to special examinations for grades. Students who fail to attend regular examinations, or who fail to hand in papers, are regarded as handing in blank papers, unless they have been previously excused from examination.

Excuses from examinations are granted only in case of absolute necessity. Such an excuse, to be valid, must be obtained from the President on or before the day of the examination, and communicated officially on that day to the Professor holding the examination.

No special examinations may be held during the regular examination periods except such as the Schedule Committee may authorize on account of unavoidable conflicts.

A student wishing a special examination must deposit an application in the office of the President at least one week before the beginning of the period of special examinations.

A student that has been excused from an examination, or has failed to pass, may have opportunity to make good his deficiency, without taking the study over again—provided a grade of not less than 50 has been obtained, at the following times:

At the period of special examinations in September preceding the regular work of the session.

At the regular examination of the same class a year from the time when the deficiency was incurred.

Junior and Senior deficiencies may be made up either at a special examination arranged by the President and the Instructor or at the regular examination at the close of the term. Further than the above, no other special examination will be allowed.

No final examinations shall be held except at the final examination periods without permission of the Faculty.

Only those that have been excused from the regular examination may take another examination for a grade. All others take it merely to pass.

REPORTS.

At the end of the first and the third quarter a report of each student's progress and deportment is sent to parents or guardian. This report shows the standing, deportment and absences from recitation and religious services. At the close of each term a grade report is sent.

THESES AND ORATIONS.

Students in the Collegiate Departments are required to prepare theses in English, Latin, Greek, and Scientific courses during each year at the option of the Professors in charge of these departments.

At three different periods of the year orations are delivered by representatives from the Literary Societies. All students that graduate are required to prepare graduating theses or orations containing not more than 1,250 words. All subjects for commencement orations or theses must be selected by January 15, and the theses and orations must be submitted by April 1, for examination. The representatives at the annual society entertainments and all others not hereinbefore provided for who are to appear in public must submit their orations, essays, or other work to the President at least two weeks before the presentation of said work to the public.

DEGREES AND CERTIFICATES.

The College confers the degree of Bachelor of Arts upon those who complete the Classical course (A.B.), of Bachelor of Philosophy upon those who complete the Philosophical course (Ph.B.), and of Bachelor of Literature upon those who complete the Literature course (Lit.B.).

The degree of Master of Arts will be conferred upon students who have completed any one of the respective Baccalaureate courses, and who have pursued a prescribed course of study, equivalent to fifteen recitations per week, and stood an approved examination.

The Master's degree may be taken by resident students in one year; non-resident students will be allowed three years from time of application to complete the course, examinations on which must be taken at the College.

No diplomas are given by the College except those for above-named degrees.

Certificates of proficiency will be given upon demand to those who have completed the course in Music, Art, Elocution, Commercial department, or any one of the several schools.

LABORATORIES.

CHEMICAL LABORATORY.—The Chemical Laboratory is well equipped with tables and desks and general apparatus for use of students.

PHYSICAL LABORATORY.—In the Physical Laboratory all the apparatus is in good condition, well adapted to the necessary experiments.

BIOLOGICAL LABORATORY.—A Laboratory in Biology has been provided with the necessary apparatus for doing elementary work. At present the Laboratory is supplied with dissecting instruments, microscope, and microtome and reagents for each student. Students are required to make notes of the work done and submit the same to the Professor.

The Museum is accessible to the students in Biology, and here they find numerous specimens of animals, birds and insects that tend to create in the student an interest for investigation.

Students in Geology find in the Geological Laboratory numerous specimens of the various kinds of rocks and minerals studied. They are expected to make collections of such specimens of rocks as can be found in the vicinity of the College.

MUSEUM.

The Museum occupies two rooms on the third floor of the College building, and has an interesting collection of curios, minerals, and animal life.

For four years Mr. B. F. Black, the Curator of the Museum, collected and prepared specimens of vertebrates of the different types. He also received many donations of

historic interest and curiosities. Collections of minerals have been donated for students of Geology.

Through the kindly interest and influence of Congressman W. W. Kitchen, the Smithsonian Institution, Washington, D. C., has donated a large collection of marine invertebrates and a set of casts of prehistoric relics, about five hundred specimens in all.

We wish to express our thanks for the large number of donations made. Donations of animals, mammals, birds, reptiles, and fishes; also minerals, curiosities, and money to help mount the specimens and equip the Museum will be thankfully received.

OPTIONAL STUDENTS.

Students not intending to complete any of the regular courses may pursue such studies as their qualification may permit and the Faculty approve.

These students are subject to the general regulations of the College.

ELECTIVES.

Elective studies must be approved by the Faculty and, in continuous subjects, pursued for a year.

Elective classes will not be formed when fewer than three apply.

MATRICULATION.

Each student goes to the President for arrangement of course, and before entering any department pays the matriculation fee, \$5.00, and receives from the Bursar a registration card which, when entered upon the Registrar's book, admits him to all departments of the College. The matriculation fee is payable at the beginning of each term, and no student is allowed any privilege of the College until this fee is paid.

Applicants for M.A. degree, resident or non-resident, are required to matriculate semi-annually. There are no tuition charges for the degree.

ATHLETICS.

The health of the students is regarded as of vital importance. Care is taken to promote a high degree of physical culture, and each year a healthful and vigorous athletic spirit is being developed. The vigor and harmony of the various athletic sports is controlled principally by the Athletic Association. Match games of ball, tennis tournaments, and field contests on the College grounds do a great deal in solving the question of proper exercise among students.

TEACHERS' REGISTRY.

A registry is kept of former students who wish to teach. Those interested are requested to keep the President informed of the changes in their postoffice address. Correspondence is invited with those desiring teachers.

MEDALS.

Four gold medals are given to the graduating class. The Stanford medal, established by Mr. and Mrs. S. L. Adams, is given for the best oration delivered at Commencement by a young man of the graduating class. It was established in memory of Hon. Richard Stanford, a patron and advocate of education and member of Congress from North Carolina, 1792-1816.

The Moffitt medal, established by the family of the late E. A. Moffitt, is given for the best thesis at Commencement by a young woman of the graduating class. This medal was established in memory of E. A. Moffitt, for many years a trustee of the College.

The Long Memorial medal, established by Rev. W. S. Long, D.D., is given to the member of graduating class making the highest average grade in scholarship.

The R. M. Morrow Thesis Medal, established by Dr. R. M. Morrow, is given to that member of the Senior class who shall have written the best thesis in any department, same to be adjudged by the Faculty. These theses, typewritten, must be submitted by the 15th of May.

FORMS OF BEQUESTS.

I give and bequeath to the Board of Trustees of Elon College the sum of dollars, to be applied at their discretion, for the general purposes of the College.

I give and bequeath to The Board of Trustees of Elon College the sum of dollars, to be safely invested by them and called the Scholarship Fund. The interest of this Fund shall be applied, at their discretion, to aid deserving students.

I give and bequeath to The Board of Trustees of Elon College the sum of thousand dollars, to be safely invested by them as an endowment for the support of a Professor of in the College.

MISCELLANEOUS.

All orations, speeches, essays or other matters to be presented in public must be submitted to the President for approval at least two weeks before they are to be given.

No student who has as many as ten demerits or who is on probation will be allowed to represent the College, or appear on the rostrum on any public occasion. It is expected that society representatives for Commencement be selected from the Junior class.

The correspondence of the young ladies will be under the supervision of the President. While he opens no letters that come into the school, and reads none that go out, except in extreme cases, no correspondence with young gentlemen is sanctioned, except by permission of parent or guardian.

It is desirable that no student be absent during the term, or leave for home before the close of the term.

Each student entering College receives a copy of the regulations, and pledges himself faithfully to observe them.

On entering, students report promptly to the President for registration, classification and assignment to a course of study.

All optional courses and electives must be approved by the Faculty.

EXPENSES PER YEAR.**TUITION AND FEES.**

Preparatory Classes	\$40 00
College Classes	50 00
Matriculation fee	10 00
Library fee	2 00

The scholastic year is divided into two terms.

EXPENSES PER TERM (Estimated).

Tuition	\$20 00 to \$25 00
Matriculation fee	5 00 to 5 00
Board and lodging.....	37 50 to 55 00
Laundry	2 50 to 5 00
Library fee	1 00 1 00
	<hr/>
	\$66 00 to \$91 00

For Girls at Dormitory Per Year.

Tuition, board, fuel, lights, servants' attendance, per year:

Preparatory Classes	\$150 00
College Classes	160 00

Charges per year to those who take Music, Art, or Elocution:

Preparatory Classes	\$190 00
College Classes	200 00

SPECIAL STUDIES.

Music, Art and Elocution are extra. Charges in these branches are, per half year, as follows:

Music (Vocal or Instrumental).....	\$20 00
Music (Vocal and Instrumental).....	35 00
Harmony	5 00
Art	20 00
Elocution	20 00
Art and Music, or Music and Elocution.....	35 00

Students in Chemistry or Biology pay in advance a Laboratory fee of \$3 per term. Diploma fee of \$5 is required of each graduate.

No departure from these rates other than those stated in the Catalogue.

Music pupils, in addition to their recitations, have the use of the piano one period daily without extra charge. Those desiring an extra period daily pay \$2.50 per term.

The matriculation fee and one-half the expenses of the term are payable in advance, and the remaining half at the middle of the term. Students pay from date of entrance to the end of the quarter. No deductions are made except for sickness protracted for more than one week under the care of a physician, whose certificate must be presented to the Bursar.

Ten per cent of tuition fees will be discounted from the regular rates when two minor children enter from the same family; three or more from the same family are entitled to a reduction of fifteen per cent. These discounts are not allowed to special students.

Candidates for the ministry are admitted on their individual note for tuition, which note will be cancelled in case they engage in active pastoral work. They are expected to bring recommendations from their conference or other authorized body.

Minor children of ministers are admitted free of tuition except in music, art, elocution, and commercial departments.

Students occupying rooms in either of the dormitories are held responsible for damage to property in their rooms.

Parents and guardians are requested to deposit with the Bursar all funds for contingent expenses, otherwise the Institution must not be held responsible.

Books, sheet music, etc., are furnished at lowest retail price, but for cash only.

BOARD FOR YOUNG MEN.

1. Board can be obtained at \$10.00 per month, including furnished room, fuel, lights, and for less if student furnish his own fuel, lights, etc. Board is payable monthly in advance.

2. Young men who desire to do so may take their meals at

the young ladies' dining-hall at a cost of \$90.00 per school year, payable in ten equal installments.

Young men desiring to room in the East Dormitory may do so for \$10.00 per room per quarter, except for corner rooms, which are \$11.25 per room per quarter, payable in advance. These rooms are furnished with oak suits, rocking chairs, bed springs, and mattresses. Young men furnish their own towels, pillows, and bedding. When two students occupy a room, the cost will be one-half the above amount to each student. East Dormitory will be under the supervision of a Proctor appointed by the Faculty.

Young men who desire to do so may obtain board at the West Dormitory and rooms at the East Dormitory for \$110 per year, including fuel, lights and servants' attendance.

3. Rooms may be rented at from \$1.00 to \$2.50 per month, and board in clubs may then be obtained at \$5.00 per month.

BOARD FOR YOUNG WOMEN.

Dormitory.—The West Dormitory, for girls, supplies board, furnished rooms, with steam heat and electric lights, and servants' attendance, at \$110.00 per year (two girls to the room). The rooms are handsomely furnished with oak suits, rocking chairs, bed springs and mattresses, and toilet and water sets. Young ladies furnish their own towels, pillows and bedding. All young ladies boarding in the Dormitory are under the supervision of the Matron. Young ladies in West Dormitory who occupy corner rooms pay \$2.50 per term extra. Board is payable, in the dormitory for young ladies, in advance, in ten equal installments, four installments before Christmas and six after Christmas. These installments for the year 1907-'08 will fall due as follows: September 5, October 3, October 31, November 28, January 1, January 16, February 13, March 12, April 9, and May 7.

No deductions are made for the holidays.

Young ladies and young gentlemen do not room at the same house.

UNIFORMS.

Young ladies will wear, during the fall and spring, waists of inexpensive material and plain black or blue-black woolen skirts. During the winter jackets of the same material as the skirts will also be worn. On Sundays and all public occasions during the fall and spring plain white pique, linen or duck skirts and plain white waists may be worn; during the winter plain black or blue-black woolen skirts and jackets, and waists of any inexpensive material. Oxford caps will be worn throughout the year.

When possible, these uniforms should be made at home.

BOARD AT COLLEGE DINING HALL.

On account of the greatly increased cost of living, the Board of Trustees, since the catalogue was issued, has deemed it necessary to increase the price of board at the College Dining Hall—including furnished room, steam heat, electric lights, use of baths, and servants' attendance—from \$110.00 to \$120.00 per year. This is an increase of only ten dollars for the entire year, but it will help the institution to meet the increased cost of everything, and at the same time will be only a small increase to each individual patron.

This will make the ten payments on board \$12.00 each, instead of \$11.00 as before.

Young men rooming in the village may take their meals at the College Dining Hall for \$100.00 per year.

For cheaper rates, and board at cost, see catalogue.

the young ladies' dining-hall at a cost of \$90.00 per school year, payable in ten equal installments.

Young men desiring to room in the East Dormitory may do so for \$10.00 per room per quarter, except for corner rooms, which are \$11.25 per room per quarter, payable in advance. These rooms are furnished with oak suits, rocking chairs, bed springs, and mattresses. Young men furnish their own towels, pillows, and bedding. When two students occupy a room, the cost will be one-half the above amount to each student. East Dormitory will be under the supervision of a Proctor appointed by the Faculty.

January 1, January 16, February 13, March 12, April 9, and May 7.

No deductions are made for the holidays.

Young ladies and young gentlemen do not room at the same house.

UNIFORMS.

Young ladies will wear, during the fall and spring, waists of inexpensive material and plain black or blue-black woolen skirts. During the winter jackets of the same material as the skirts will also be worn. On Sundays and all public occasions during the fall and spring plain white pique, linen or duck skirts and plain white waists may be worn; during the winter plain black or blue-black woolen skirts and jackets, and waists of any inexpensive material. Oxford caps will be worn throughout the year.

When possible, these uniforms should be made at home.

Positively there will be no exception to this regulation.

ENDOWMENT.

The College has received from Rev. O. J. Wait, D.D., Fall River, Mass., former President of Antioch College, Ohio, one thousand dollars; from Rev. J. J. Summerbell, D.D., Dayton, Ohio, twenty-five dollars; and from Hon. Francis Asbury Palmer, of New York, thirty thousand dollars. Of these gifts, thirty thousand has been set apart as a permanent endowment.

CHARGES FOR M.A. COURSE.

Applicants for M.A. degree, resident or non-resident, are required to matriculate semi-annually. There are no charges for tuition for this degree.

Course of Study.

ENTRANCE EXAMINATIONS.

Examinations for admission into the College classes are held at the beginning of each term on the following:

English.—Students are examined in English Grammar, Composition, Elements of Rhetoric, and College Requirements.

Science.—Physical Geography, Physiology, and Descriptive Physics.

Latin.—Latin Grammar and Exercises, four books of Cæsar and six of Cicero's Orations and six books of Virgil's *Æneid*, with Prosody.

Greek.—Greek Grammar and Exercises, with the Anabasis. White's First Greek Book is recommended.

Mathematics.—Arithmetic, Complete School Algebra, and Advanced Algebra to Equations of Second Degree. Three books of Geometry recommended.

Applicants bringing certificates from schools whose work is approved will be admitted without examination.

For those not prepared for College, there is offered, under the direction of the Faculty, a thorough Preparatory Course.

ERRATA AS TO ENTRANCE REQUIREMENTS.

The following requirements for entrance were omitted from the catalogue by mistake:

History—United States and General History.

Modern Languages—Those who do not take Greek will take French or German—Grammar complete, with exercises and selected readings.

Latin—Add to Latin requirements: Bennett's Latin Grammar complete, and Jones' Latin Prose Composition complete.

Approved work done in the departments will be allowed as a substitute for an equivalent amount of work in the Lit. B. course, except for Mathematics, Latin, English, and Bible in the Freshman and Sophomore years.

No student is allowed to take a course for graduation in less than four years, unless he enter as an advanced student.

The College.

SCHOOL OF GREEK LANGUAGE AND LITERATURE.

PROFESSOR W. F. NEWMAN.

For admission into this department the student is expected to be familiar with inflections and the simpler principles of syntax, and the *Anabasis* (Harper and Wallace). White's *First Greek Book* is recommended to those preparing for examination.

College Classes.

FRESHMAN.

Fall Term—Plato's *Apology* and *Crito*, and Jones' *Composition* (4). Special drill on forms.

Spring Term—Merry's *Herodotus* (4). Drill on verb, word-formation and Ionic dialect.

SOPHOMORE.

Fall Term—Bristol's *Lysias* and Harrison's *Story of Greece* (3).

Spring Term—Jebb's *Selections from Attic Orators* (3). Exercises in *Composition* (Sedgwick).

JUNIOR.

Fall Term—Keep's *Homer's Iliad* (3). Jebb's *Greek Literature*.

Spring Term—Seymour and Perrin's *Odyssey* and Tyler's *Greek Lyric Poets* (3).

SENIOR (Elective).

Fall Term—Perves' *Plato*, Humphries' *Clouds of Aristophanes* (3).

Spring Term—Wescott and Hort's *Greek Testament* and Smith's *Studies in the Greek New Testament or Greek Dramatists* (3).

For Reference—Liddell and Scott's *Lexicon*, Hogue's *Irregular Verbs of Attic Prose*, Smith's *Classical Dictionary*, Goodwin's *Greek Moods and Tenses*, Ginn's *Classical Atlas*, Thayer's *Greek-English Lexicon to the New Testament*, Appleton's *Poets in English*, Mahaffey's *Old Greek Education and Old Greek Life*.

The subjects taught are the Language, Literature and Philosophy of the Greeks.

In the first year of the course the aim is to enrich the student's English vocabulary, develop the power of continuous attention, cultivate exactness and vigor of expression and accuracy and fluency in the use of words. Much attention is given to the application of grammatical principles, composition, sight reading, use of synonyms, comparison of Greek, Latin and English idioms, cognates, word-formation, derivation and growth, translation of the text into idiomatic English, and the characteristics of the authors studied.

In the advanced classes the thought and style of the authors read are studied, and the work is extended to the Life, Literature, Philosophy and Religion of the Greeks.

An Elementary Course is offered with special reference to the use of Greek in English and scientific terms.

Final examinations will be based partly upon passages not previously read by the class.

Graduate work may be modified or extended to meet the wants of the applicants.

SCHOOL OF LATIN LANGUAGE AND LITERATURE.

PROFESSOR HARPER.

The study of Latin extends over the full College course. The work in the Freshman and Sophomore years is required of all candidates for degrees.

This school aims to enable the student to acquire facility, fluency, and accuracy in translation, to acquaint him thoroughly with the grammatical and rhetorical structure of the language, and to foster in him that sympathetic understanding of Latin as *Latin*, which is an indispensable condition of its mastery.

In the Sophomore year, courses in Roman Life, Mythology and Literature are given, covering one hour per week throughout the year. Latin Prose Composition and Grammar are studied throughout the first three years. The last half of the Senior year gives an introduction to the historical development of the Latin Language and to the vast field of Latin inscriptions.

Parallel readings and essays on all the authors read are from time to time assigned. Particular attention is paid to hidden quantity, meters, dictation, sight reading, pronunciation by the Roman method, and word-formation.

College Classes.

FRESHMAN.

Fall Term—Cicero's *De Amicitia*, *De Senectute*, *Tusculanae Disputationes*, Book I, and *Somnium Scipionis* (3). Grammar and Composition (1).

Spring Term—Catullus, and selections from Propertius, *Tribullus* and Ovid (3). Grammar and Composition (1).

SOPHOMORE.

Fall Term—Livy, Books I and XXI, and Plautus' *Captivi* (2). Grammar and Composition (1).

Spring Term—Horace's Odes, Books I and II, his *Satires*, Book II, and Terence's *Phormio* (2). Literature. Grammar and Composition (1).

JUNIOR.

Fall Term—Tacitus' *Dialogus de Oratoribus*, *Germania*, and *Agricola* (2). Grammar and Composition (1).

Spring Term—Pliny's Letters and his Correspondence with Trajan, with reference to the government of the Roman Provinces (2). Grammar and Composition (1).

SENIOR.

Fall Term—Lucretius *De Rerum Natura*, with reference to the philosophy of the Romans, and either Horace's *Epodes* and *Ars Poetica* or Ovid's *Fasti* with reference to Roman religion (3).

Spring Term—Allen's *Remnants of Early Latin* and Egbert's *Study of Latin Subscriptions* (3).

In the Senior year an additional course may be elected from courses treating on Syntax, Roman Topography, Linguistics, Text Criticism, and advanced prose composition, particulars of which courses may be had by writing to the Professor. Courses for graduate students prescribed on demand.

SCHOOL OF ENGLISH LANGUAGE AND LITERATURE.

PROFESSOR LAWRENCE.

This department offers a practical knowledge of the English Language and Literature. The masterpieces of American and English authors are studied carefully and critically, and are made the basis for style. Essays, themes, and theses are required. Parallel work is done under the direct supervision of the Professor.

The following courses are offered:

FRESHMAN.

The requirements for entrance into this class conform to the requirements of the College Entrance Examination Board, Substation 84, New York City, to which anyone preparing for the Freshman class may apply for full information concerning text-books, etc.

The preparation covers a practical knowledge of any higher grammar used in the public schools; the ability to write good English as conforming to the standards set forth in such elementary works on rhetoric as *Genung's Outlines of Rhetoric*, *Hill's Beginnings of Rhetoric and Composition*, or *Butler's School English*; and familiarity with the following English classics:

Shakespeare's *The Merchant of Venice* and *Macbeth*; Addison's *Sir Roger de Coverly Papers*; Irving's *Life of Goldsmith*; Coleridge's *The Ancient Mariner*; Scott's *Ivanhoe* and *The Lady of the Lake*; Tennyson's *Gareth and Lynette*, *Lancelot and Elaine*, and *The Passing of Arthur*; Lowell's *The Vision of Sir Launfal*; and George Eliot's *Silas Marner*.

Fall Term—Hill's *Principles of Rhetoric*; Wendell's *English Composition*; Essays.

Spring Term—Pancoast's "Introduction to American Literature" and Long's "American Poems." These text-books are supplemented with assigned reading in the prose works of American authors. Essays are required in the spring term also.

SOPHOMORE.

Fall Term—Studies in prose style, "Representative Essays on the Theory of Style" by Brewster is used as a text. Hawthorne, Lamb and Ruskin are studied as models for prose compositions.

Spring Term—A survey of the field of English literature. Stopford A. Brooke's *English Literature* is used as a guide in this course.

JUNIOR.

This course is intended to lay a foundation in Old and Middle English and to prepare the student in the study of the English language for advanced work in philology.

TEXTS:—Bright's Anglo-Saxon Reader, Emerson's middle English Reader, and Emerson's History of the English Language.

SENIOR.

An advanced course in English composition. The student will need a standard English grammar, Genung's Working Principles, or some other standard rhetoric, and Wendell's English Composition. The recitations will consist in the reading and criticising of original essays. The course is supposed to give instruction also on the preparation of manuscripts for the press. Open to Juniors and Seniors.

ELECTIVE.

This course for the year 1907-'08 is to be devoted exclusively to a study of Shakespeare. From twenty-five to thirty of his plays will be read. In case the class has not read any work on literary criticism, Johnson's Elements of Literary Criticism will be read at the beginning of the session. Open to Junior's and Seniors.

SCHOOL OF MATHEMATICS.

PROFESSOR KERNODLE.

The study of Mathematics trains the mind to habits of attention and analysis, and lays the foundation for successful private study and of accurate knowledge.

To enter upon the course of study in Mathematics requires a knowledge of the fundamental principles and operations of Arithmetic and facility in numerical computation; also a knowledge of the elements of Algebra, which includes the fundamental operations, the solution of equations, theory of exponents and quadratics, also Geometry as much as three books recommended, as indicated under entrance examinations.

The course extends over four years. The first two years give a good foundation for practical work in the Applied Mathematics, but to meet the requirements for advanced

work in the sciences the third year is essential. Having completed this, the student can pursue with pleasure as well as profit to himself the elective courses.

The courses of the Freshman and Sophomore years are required of all students who are candidates for any one of the baccalaureate degrees conferred by the College. All the other courses are offered as electives for Juniors and Seniors as indicated under the several classes. Graduate students may elect any of the courses of the Senior year not previously taken.

College Classes.

(I.) Pure Mathematics.

FRESHMAN.

Fall Term—Algebra, beginning with quadratics and reviews, including Indeterminate Equations, Progressions, Undetermined Coefficients, Logarithms, and General Theory of Equations (Well's College Algebra or equivalent).

Spring Term—Plane and Solid Geometry, including the solution of simple original exercises and numerical problems.

SOPHOMORE.

Fall Term—Plane and Spherical Trigonometry, the functions of angles defined as ratios and illustrated by line values, formulæ, solution of Trigonometrical equations and of triangles, application to Mensuration, etc. (Murray).

Spring Term—Plane Analytic or General Geometry—loci and their equations; the Point, Straight Line, Conic Sections, and Higher Plane Curves; Transformation of Co-ordinates.

JUNIOR.

Fall Term—Differential Calculus, its application in the expansion of Functions, evaluation of Indeterminate Forms, and solution of problems in the Analytic Geometry; Maxima and Minima of Functions.

Spring Term—Integral Calculus, its fundamental Integrals and their application to Length of Curves and Area of Surfaces. Elective.

SENIOR.

Fall Term—Solid Analytic Geometry. Modern Geometry—symmetry, maxima and minima; isoperimetry, transversals, polars, etc.

Spring Term—Calculus, its application to Functions of two or more variables, partial differentiation, changes of variables; double and triple Integration, Space Integrals; Hyperbolic Functions. Elective to students who have passed on the required Junior Mathematics.

(II.) Applied Mathematics.

JUNIOR.

Fall Term—Plane Surveying—use and adjustment of instruments, chain and compass surveying; computation of areas, and leveling (Barton).

Spring Term—Same work continued. Class work and field practice. Elective to students who have passed on the required Sophomore Mathematics.

SENIOR—CIVIL ENGINEERING.

Fall Term—Land Surveying—principal instruments used and elementary operations; General Methods—City Surveying, Topographical Surveying, Earthwork Computations, Street Grading, Excavations, etc. (Carhart, Raymond).

Spring Term—Same work continued. Hydrographic Surveying; Mine Surveying. Practice in plotting surveys and mapping. Elective to students who have passed on Junior Pure Mathematics.

SENIOR—MATHEMATICAL PHYSICS.

Fall Term—Mechanics; Hydromechanics; Pneumatics; Sound, Heat, and Light (Ames).

Spring Term—The same subjects continued. Analytic Mechanics (Wright). Elective to students who have passed on Junior Pure Mathematics.

SENIOR—ASTRONOMY.

Fall Term—Astronomy, Spherical and Practical; description of instruments; Astronomical Formulæ; calculation of Time, Latitude, Longitude, Azimuth, and Altitude.

Spring Term—The subject continued. Theory and calculation of Eclipses (Greene's Spherical Astronomy; Young's Manual). Elective to students who have passed with a good working knowledge of Junior Pure Mathematics.

SCHOOL OF NATURAL SCIENCE.

PROFESSOR WICKER.

In this department, the student is led to deal directly with the facts of nature, to make and record his own observations, and to draw his own conclusions. The purpose of the course is to quicken and train the perceptive powers, to develop correct habits of classification, and to enable the student to organize the facts of nature according to the laws of thought.

(I.) Astronomy.

This course embraces the study of Descriptive Astronomy for one-half year, during which time the elementary principles of the science will be studied as an introduction to a more complete course to be offered in the advanced classes.

(II.) Geology.

Two hours a week for the fall term.

The purpose of this course is to give an introduction to the more advanced study of Geology. Structural, Dynamical and Historical Geology will be studied during the year. Frequent field excursions will be made to study rocks and soils in the vicinity. The laboratory is supplied with numerous typical specimens.

TEXT-BOOK:—LeConte's Compend of Geology.

(III.) Physics.

Three hours a week for the entire session. Prescribed for Sophomores.

The work of the course will embrace the study of Matter, Energy, Heat, Motion, Sound, Light and Electricity. Numerous examples and experiments will be given throughout the entire course, with a view to rendering the work practical.

(IV.) Chemistry.

Three hours a week devoted to recitations and lectures, two afternoons a week to laboratory work, for the entire session.

Recitations and Lectures.—These are devoted to the study of the elements and compounds according to the Periodic Law, after a few typical examples have been studied. The occurrence, preparation, properties and uses of chemical elements and their compounds are studied and explained. The student is drilled in handling chemical symbols and equations. Illustrative experiments are performed in the presence of the class, and emphasis is placed upon important chemical principles.

Laboratory Work.—This work must be done parallel both in point of time and subject-matter, with the lecture and recitation work. The course will not be completed until the laboratory work extends over the entire text studied.

Each student is assigned a desk for work. He arranges apparatus and collects the necessary chemicals for each experiment without aid from fellow students. Experiments must be performed without assistance from any one except the Instructor, who is always present to render assistance and to make suggestions when necessary. Each student must take notes on the work done and submit them from time to time to the Instructor for examination, correction, and suggestion. All apparatus broken must be paid for at market prices.

TEXT-BOOKS:—Remsen's Introduction to Inorganic Chemistry. Chemical Experiments, Remsen and Randall.

(V.) General Biology.

Three hours a week for lectures and recitations, two for laboratory work, throughout the session. The lecture period may be devoted to laboratory work.

The purpose of this course is to present the essential facts of the Histology, Morphology and Physiology of the animal and the plant kingdom. Among the topics studied are living matter—its history, composition and structure—contractility, irritability, metabolism, reproduction and heredity. For the illustration of these facts, the following typical animals and plants are studied in the laboratory in the order named:

Amoeba, Yeast, Mould, Sponge, Spirogyra, Hydra, Nitella, Earthworm, Crayfish, Mussel, Fern, Fish, and Fowl.

(VI.) Botany.

Three hours a week for lecture and recitation, two for laboratory work, for the spring term. Lecture periods may be used for laboratory work.

This course seeks to give the student a systematic study of the entire plant series by studying representative types of all the different groups from the Algæ and Fungi up to the Flowering Plants. As a means for studying the conditions under which plants grow, the class must collect, under the direction of the Instructor, the material for study in the laboratory.

The Biological Laboratory.—This laboratory is supplied with simple and compound microscopes for each student. All necessary dissecting instruments, reagents and material are provided for the student.

REFERENCE WORKS:—The best books of reference are accessible to the students for parallel reading, research and investigation.

SCHOOL OF MODERN LANGUAGES.

Students are carefully trained in fundamental principles and constructions, in translation and composition. Attention is given to comparative philology, especially of German and English. Parallel work is required in History and Literature.

German.**FIRST YEAR.**

Fall Term—Joynes-Meissner's German Grammar, Volkman's *Kleine Geschichten*.

Spring Term—Joynes-Meissner's German Grammar, Storm's *Immensee*, Goethe's *Das Maerchen*.

SECOND YEAR.

Fall Term—Schiller's *Der Geisterseher*, Gestaecker's *Germelhausen*, Composition.

Spring Term—Freytag's *Die Journalisten*, Freytag's *Soll und Haben*, Lessing's *Minna von Barnhelm*, Composition.

THIRD YEAR.

Jeungfrau von Orleans, Wilhelm Tell, Hermann und Dorothea, Iphigenie auf Tauris, Romeo und Julia auf dem Dorfe. (Elective to those passing creditably on second year work.)

French.

FIRST YEAR.

Fall Term—French Grammar and exercises, *Fraser* and *Squair* (3).

Spring Term—French Grammar, *Fraser* and *Squair* (1); *Contes Bleues*, *Laboulaye*; *Vingt Mille Lieues sous la mer*, *Verne* (2).

SECOND YEAR.

Fall Term—Grammar; *Monte Cristo*, *Dumas*; *Cyrano de Bergerac*, *Rostand*; *Le Monde au l'au S'ennui*, *Pailleron* (2).

Spring Term—*Hernani*, *Hugo*; *Le voyage de M. Perrichon*, *Labiche* and *Martin*; *Modern French Lyrics*, *Bowen*; *Sept. Grand Auteurs*, *Fortier* (2).

THIRD YEAR (Elective).

Scenes de la Revolution Francais, *Lamartine*; *Cinq Scenes de la Comedie*, *Balzac*; *Le Cid*, *Carneille*; *Souvenirs d'Enfrance et de Jeunesse*, *Renan*; *Andromaque*, *Racine*; *Bug Jargal*, *Hugo*; *La Triade Francais*; *Sight Translations*, *Original Compositions*, *Grammar and Conversations* (3).

SCHOOL OF BIBLICAL LITERATURE AND DOCTRINE.

PROFESSOR NEWMAN.

The course is Biblical rather than theological, and practical rather than speculative.

The Bible is taught as the basis of culture and the foundation of knowledge and as the heart of Christian education.

There are also classes in New Testament in Greek, and in Old Testament in Hebrew.

The aim of this department is to give the student a clear conception of the unity of the Bible, a systematic knowledge of the fundamental doctrines of the church; the great movements and underlying principles of Christian history; the characteristics of the Bible writings; the historical setting

of the Gospel material; the teachings of Christ and their superiority to any other system of ethics or religion.

Courses are offered in Biblical History, Geography, Literature and Doctrine, Church History, and Homiletics, as follows:

FRESHMAN.

Fall Term—Biblical History.

Spring Term—Sacred Geography.

SOPHOMORE.

Fall Term—Biblical Literature, Lectures, and Theses.

Spring Term—Biblical Literature, Lectures, and Theses.

JUNIOR.

Fall Term—Biblical Doctrine, Lectures, and Theses.

Spring Term—New Testament Theology.

SENIOR.

Fall Term—Church History.

Spring Term—Outlines of Christian Theology.

FOR REFERENCE:—Willett and Campbell's *The Teachings of the Books*, Farrar's *The Message of the Book*, Farrar's *The Bible: Its Meaning and Supremacy*; Stevens' *Theology of the New Testament*, Stevens' and Burton's *Harmony of the Gospels*, Freeman's *Bible Manners and Customs*, Bernard's *Progress of Doctrine in the New Testament*, Stevens' *Johannine Theology and Pauline Theology*, Terry's *Biblical Hermeneutics*, Schaff's *Through Bible Lands*, Smith's *Bible Dictionary*, Green's *Hand-Book to the Grammar of the New Testament*, Kern's *The Minister to the Congregation*, Wilcox's *The Pastor Amidst His Flock*, Farrar's and Edersheim's *Life of Christ*.

SCHOOL OF HISTORY.

PRESIDENT MOFFITT.

Four courses in History are offered in the College Department. The purpose in the Freshman and Sophomore years is to deal mainly with the history of those countries in which the other departments of the College are especially interested.

In the Junior and Senior years the work is elective, and

the student will have the choice of two lines of study, to be given in alternate years: 1. English and American History—General and Cultural; 2. English and American History—Political and Constitutional.

College Classes.

FRESHMAN.

1. This year will be devoted to a study of Ancient History, especial consideration being given to Greek and Roman History.

Required of students in all courses.

SOPHOMORE.

2. Mediæval and Modern History, the work being confined mainly to a study of European countries.

Required of B. Lit. students.

JUNIOR AND SENIOR ELECTIVES.

3. English and American History—General and Cultural.
To be studied with especial reference to the social, literary, and religious development of the two countries.

Open to all Juniors and Seniors. Not to be given in 1907-1908.

4. English and American History—Political and Constitutional.

This course is designed to give a thorough general knowledge of the political and constitutional changes and developments of these two types of government—monarchical and republican.

Open to all Juniors and Seniors. To be given in 1907-1908.

These two elective courses to be given in alternate years.

For requirements for entrance to this department, see the Preparatory Department.

THE HEBREW OLD TESTAMENT.

PROFESSOR WICKER.

The instruction given in this course is by the Inductive Method. Analysis of Hebrew Forms, Oral and Written Composition, and Sight Reading of the historical books of the Old Testament enable the student to gain a working knowledge of the language and literature of the Sacred Scriptures, to use commentaries on the Hebrew text, and to begin the work of Hebrew exegesis.

This course is offered as an elective in the Senior class or for the Master's degree.

TEXT-BOOKS:—Harper's Elements of Hebrew, Hebrew Method and Manual, Hebrew Vocabularies.

SCHOOL OF MENTAL AND MORAL PHILOSOPHY.

PROFESSOR WICKER.

This school embraces the study of Logic, Psychology, History of Philosophy, and Ethics.

It is the aim of this course to discipline the student in the habit of sound thinking, original enquiry, metaphysical speculation, independent investigations, and the study of himself, of nature, and of God.

Parallel and original class work will be required. The right of substituting other text-books for the ones mentioned is reserved.

A thesis of not less than 2,500 words in original investigation must be submitted by each student in this course by the first of May.

I. Psychology—James' Briefer Course, supplemented by lectures (3).

II. Logic—Jevon's Inductive and Deductive (2).

III. Science of Thought—C. C. Everett—Lectures and Parallel Readings.

IV. Ethics—Ethical Principles—James Seth (3). The Ethical Problem, as treated by the various schools of thinkers.

Theses. Lectures.

Each department in this course is distinct, and no student will be counted as proficient in this course unless a satisfactory examination in each department is passed.

SCHOOL OF PEDAGOGY.

The work in this department includes the study of the theoretical principles of Pedagogy and their practical application in methods, management, and instruction. Courses are offered in Educational Psychology, with special reference to the application of psychological principles in acquiring and imparting knowledge; in The History of Education, with reference to sources of historical information, the evolution of educational theories, and the development of educational institutions; and in The Philosophy of Education, with reference to the correlated types of educational theories in their relation to ultimate reality.

Course I. is offered in the Freshman class to students applying for Ph.B. or Lit.B. degrees. Courses II. and III. are offered as elective to Juniors and Seniors for Philosophy (2).

Course I. Elementary Psychology.—Lindner's Empirical Psychology; Dewey's Stages of Mental Development; Psychology and School Practice; and First Herbart Year-Book.

Methods and Management.—Roark's Method in Education; Seeley's A New School Management; Murray's General Method; and Elementary School Records 3 and 4.

Course II. History of Education.—Seeley's History of Education; Williams' History of Modern Education; Monroe's Source-Book of History of Education, and Educational Ideal; and Browning's Educational Theories.

Course III. Philosophy of Education.—Horne's Philosophy of Education, Butler's Meaning of Education, Griggs' Moral Education, and Royce's Spirit of Modern Philosophy.

These courses will be supplemented by parallel reading of current pedagogical literature and periodicals to give the student an insight into the present educational conditions and tendencies in order that they may be thoroughly fitted for

practical teaching in the public and graded schools of the State, and be well prepared for superintendents by practical training in school methods and management.

SCHOOL OF POLITICAL AND SOCIAL SCIENCE.

PROFESSOR HARPER.

Of this school there are two branches—the one political and economic, the other social and ethical. The course of study and instruction in the former will relate to questions of economy, such as Production, Transportation, Exchange, Consumption, Finance, The Tariff, Banking, Taxation, Coinage, Stock Market, etc., etc.

The course of study in the latter will be social rather than economic, ethical rather than financial. Here, after acquainting the student with the theory and history of Sociology, the endeavor is made to bring him face to face with the social condition and moral status of the community, State, and Nation. On its practical side the course will cover the various phases of Charity, Labor and Labor Organizations, Trusts, Socialism, Communism, Anarchy, Co-operation, Profit-Sharing, Prison and Prison Population, Prohibition, Local Option, High License, the Drink Problem, Care of Aged, Blind, Insane, etc., etc.

The two courses will alternate, and are open to both Juniors and Seniors in the same year, thus affording opportunity to the student who desires to take both to do so.

(I.) Political Science.

The course runs through the entire scholastic year (2). For the general theory of the science, Gide's Political Economy. For the financial side of the subject, White's Money and Banking. Early in the Spring Term a course of a dozen or more lectures will be given on the methods of Economic Research, Bibliography, Use of Library, How to Record Observations, etc. Weekly themes and parallel work on kindred subjects.

(II.) Social Science.

The course runs through the entire scholastic year (2). The course is divided into two parts:

(a) *The Theory of Sociology*.—Text-book, Tylor's Anthropology. Lectures showing the relation of Sociology to the other Social Sciences and then developing the subject along the line of the four great motives that influence men, Self-maintenance, Self-preservation, Self-gratification, and Worship of Superior Beings, showing how out of these motives grew the ideas of property, the family, amusements, customs, governments, etc., etc.

(b) *Practical Sociology*.—Text-books, Wright's Elements of Practical Sociology and Hart's Actual Government. Lectures covering the various phases of Charity, Labor, Immigration, etc., as detailed above. In connection with the course the following books are to be read: Ruskin's *Unto This Last*, Carlyle's *Past and Present*, Sumner's *What Social Classes Owe to Each Other*, Kingsley's *Alton Locke*, Shaeffler's *Quintessence of Socialism*, Taylor's *Profit-Sharing*, and several magazine articles.

SCHOOL OF MUSIC.

MISS WILSON, DIRECTOR.

MISS RAMSAY.

MISS PITT.

The plan of instruction in this department has a solid foundation, broad in scope and high in standard, the purpose being to present a course that shall be rational, systematic, and productive of musical thought and culture.

The length of time needed for the completion of this course depends entirely on individual ability and application.

The following or similar works will be used:

First Grade.—Urbach, Lebert and Stark, Book I; Howe's or Kohler's Piano Schools; Loeschorn Op. 85 and 65; Matthew's Graded Studies; Easy Pieces; Easy Duets for four hands.

Second Grade.—Scales complete; Duvernoy's Progressive Studies, Op. 176, Books I and II; Behren's Op. 61; Matthew's Studies in Phrasing; Mendelssohn Songs Without Words.

Third Grade.—Bertini, Op. 29; Behren's School of Velocity; Turner's Elements of Modern Octave Playing; Bach's Two-voiced Inventions; Selections from Mendelssohn, Beethoven and Kuhlau.

Fourth Grade.—Cramer's 50 Selected Studies; Bach's Three-voiced Inventions; Clementi's *Gradus ad Parnassum*; Selections from Chopin, Haydn and Mozart.

Fifth Grade—Moscheles, Op. 70; Neupert's Expression and Technique; Bach's Well-Tempered Clavichord, Book I; Chopin, Etudes; Compositions by Schuman, Schubert, Liszt, Rubinstein and others.

For those desiring pipe organ lessons, a full course of instruction is offered, and also harmony. The latter is designed to cultivate a thorough knowledge of chord construction and to develop the perceptive faculties. This branch is indispensable to piano students and organists. One lesson, two hours in length, will be given each week at an additional expense of \$1.00 a month. One dollar per month extra is charged for services in pumping the organ.

Teachers' certificates will be given those passing an examination on the first four grades, with one public recital during the year.

Certificates of Proficiency are given to those completing the full course in piano, voice, or organ.

VOICE CULTURE.

The course for singing is progressive and practical, the individuality and future requirements of each pupil being carefully considered.

Special attention is given to sight reading and ensemble work.

The following or similar studies may be used: Concone, Lieber, Marchesi, Lamperti, and others.

Thorough instruction in Ballad, Song, English and German Oratorio, Lyric Declamation, and Italian Opera.

SCHOOL OF EXPRESSION.

MISS HELFENSTEIN.

"Of all the forms of art, vocal expression is the nearest to nature." The School of Expression maintains that broad, general culture is the only basis for the best work in expression. In this school the dominant idea is not information, it is education. It takes the pupil as it finds him, doing for

him whatever is necessary so as to bring out his inborn powers. He becomes self-centered and strong. Creative work is required in conversation, debate, recitations, and dramatic interpretations.

Outline of work for Elocution and Public Speaking:

First Year—Elementary Voice Work, Organic Gymnastics, Observation Study, Articulation, Pantomimic Action, Tone Color, Harmonic Gymnastics, Character Study, Reading, Impersonations, Debating, Discussions, Platform Art, Gestures, Dramatic Thinking, Criticism, Curry's Theory, Part I., Emerson's Evolution of Expression, Vol. I.

Second Year—Interpretation, Pronunciation, Emotional Work, Dialect, Posing, Shakespeare's Art, Dramatic Platform Art, Modern Drama, Stage Business, Conversational Oratory, Amateur Lecturing, Extemporaneous Speaking and Debating, Curry's Theory, Part II., Emerson's Theory, Vol. 2.

Third Year—Elasticity of Voice, Dramatic Modulation, Pantomimic Expression, Shakespeare's Tragedies and Comedies, Browning and Emerson's Works, Debating, Oratory, Vocal Interpretation of the Bible, Curry's Theory, Part III. A certificate is given for three years' good work.

SCHOOL OF FINE ARTS.

MISS PRESTON.

The Art Studio is large, well lighted, and furnished with the necessary equipments. Excellent opportunity is afforded those desiring to study Drawing, Water Color and Oil Painting either from flat, cast or still life; also China Painting, Tapestry, Wood Carving, Pyrography, etc. Object Drawing is an important feature of class work, and pupils are taught to be self-reliant and independent.

COMMERCIAL DEPARTMENT.

This department emphasizes the practical side of a higher education. That education which enables one to obtain, by honest effort, a comfortable living, and, at the same time, to be of service to his community, is a goal worthy of the highest efforts. The course of study is here briefly outlined:

(I.) Bookkeeping.

Single Entry, Double Entry, and Corporation Bookkeeping. Higher Accounting, including Business Practice in Wholesale, Retail and Commission Merchandising, Banking, Brokerage and Exchange, Insurance, Real Estate, Partnership, etc., etc.

(II.) Commercial Arithmetic.

Rapid Calculations, Short Methods, Percentage, Interest, Bank Discount, Exchange, Averaging Accounts, Partnership Settlements, etc., etc.

(III.) Business Law.

Contracts, Agents, Common Carriers, Partnerships, Corporations, Deeds, Mortgages, Leases, Liens, Wills, and Commercial Papers, etc. These and kindred subjects are treated more fully under the head of Political and Social Science.

TEXT-BOOKS:—Goodyear's Essentials of Bookkeeping, with Higher Accounting; Kernodle's Practical and Commercial Arithmetic; Clarke's Commercial Law.

FOR REFERENCE:—Williams' and Rogers' Complete Bookkeeping, Fairbanks' and Soule's Bookkeeping; The New Packard's Commercial Arithmetic; Parson's Laws of Business; Encyclopædia of Business Law and Forms.

(IV.) Stenography and Typewriting.

In the study of Shorthand students receive thorough instruction, and by the time the text-book is completed are prepared to write from dictation an average of seventy-five words per minute. They are exercised on business letters, legal forms and testimony, bills and invoices, newspaper and other miscellaneous matter. These dictations they are required to transcribe in longhand, or on the typewriter, word for word, as dictated, faultless in spelling, punctuation and capitalization. Standard machines are used for practice in this department.

We do not expect all who study shorthand to make reporters, yet they can acquire the principles, which by practice may contribute materially to their future success.

Students in Bookkeeping and Shorthand pay regular college tuition and have all the privileges of college students. For use of typewriter students pay a fee of \$5 per term.

PREPARATORY DEPARTMENT.

PROFESSOR LINCOLN, PRINCIPAL.

This department commends itself strongly to two classes of young people. Many of them are well trained for advanced classes, except in one or two studies. To these this department offers advantages superior to the coaching system under students of little experience and too busy with their own studies to give special attention to teaching. Here such students are not under coaches, but are taught by the regular professors. Many advantages follow; the student receives more and better instruction; his foundation work is so well done that he obtains much larger benefits from the higher classes; fifty minutes are given to each recitation; his instructors are men of proved ability as teachers, representing the best culture of our leading institutions.

Not a few wish to attend school away from home, because there is no good preparatory school convenient, or that they may have the stimulus of a more varied and real student life, knowing that association in the literary societies, religious organizations, daily contact with those of broader scholarship, larger views, maturer habits, gives a refinement of manners, a grace of speech, a largeness of purpose, and a strength of character which promise a life of greater usefulness and of richer success.

The course is so arranged that those entering for a year or two only may advance into the regular college classes with no abrupt break in their work and without the loss of time and money incident to changing schools and text-books. Thorough training and association with students of high ideals and cultivated taste inspire many with a stronger desire for knowledge and culture. For this reason a large number go from the Preparatory Department into the College classes or go out fitted for the practical business of life.

Students in this department will be required to take Penmanship, unless excused by the Faculty. A system of rapid writing is taught, including the study of forms, movements, and analysis. Numerous exercises will be given, and the student is taught both plain and ornamental penmanship.

In the Commercial Department instruction is given in Shorthand, Typewriting, Bookkeeping, etc.

Preparatory Course.

MATHEMATICS:—Arithmetic (White's and Kernodle's), Elementary Algebra completed (Wentworth's), Higher Algebra through Quadratics (Well's New Higher Algebra), Plane Geometry, three books (Wentworth).

LATIN:—Pearson's Essentials of Latin, Jones's Latin Prose Composition, Bennett's Latin Grammar, four books of Cæsar (Harkness and Forbes), six Cicero's Orations (Johnson), Virgil, six books, with Prosody.

SCIENCE:—Tarr and McMurray's Elements of Geography, Physiology (Cutter), Physical Geography (Houston's), Elementary Physics (Sharpless and Phillips).

ENGLISH:—Buehler's English Grammar, English Composition (Scott and Denny), Foundation Lessons in English, Beginnings of Rhetoric and Composition (Hill), College Requirements, Essays and Themes.

GREEK:—First Greek Book (White), Xenophon's Anabasis.

MODERN LANGUAGES:—Those who do not take Greek will take French or German—Grammar completed, with exercises and selected readings.

HISTORY:—United States History (Montgomery), General History (Myer's).

All who are candidates for entrance into the Freshman Class must pass an examination in the Preparatory Course or its equivalent, or present a certificate from some approved school that it has been done.

Alumni.

OFFICERS.

President, Prof. W. P. Lawrence.....	Elon College, N. C.
Vice-President, Prof. W. C. Wicker.....	Elon College, N. C.
Recording Secretary, Miss Jennie Herndon.....	Greensboro, N. C.
Corresponding Secretary, Prof. S. M. Smith.....	Raleigh, N. C.
Treasurer, Mrs. W. P. Lawrence.....	Elon College, N. C.
